

Clinicians Health Channel Newsletter

Resource News

eTG's updated **[Oral and Dental Guidelines](#)** is now available and provide concise information on a broad range of oral and dental conditions and include advice that is relevant to both dentists and medical practitioners. Other **[recent updates](#)** can be found on the eTG **[News page](#)**.

In the most recent updates, the **[Pregnancy and Breastfeeding Medicines Guide](#)** (PBMG) added two new medicine profiles – bendamustine and cobimetinib to the medicine library. Sixty-three (63) medicine profiles have been reviewed and updated, including cardiovascular and immunomodulator and antineoplastic medicines.

[The Australian Injectable Drugs Handbook](#) (AIDH) provides up-to-date and vital information on more than 500 injectable medicines. The 8th edition which will be available in February 2020, has been completely revised and includes information on more than 50 new medicines and new paediatric information for more than 50 medicines. New sections include community-based parenteral antimicrobial therapy (CoPAT) and management of extravasation.

Royal Victorian Eye & Ear Hospital Expo

During October 2019, CHC participated in an Expo organized by the Library at the Royal Victorian Eye and Ear Hospital Expo. Clinicians learned about resources on the CHC and participated in training activities. In addition, CHC visited hospital departments including the pharmacy, to provide one-on-one and group training.

Peninsula Health Expo

CHC ran training and information sessions at the well-attended Expo organized by the Frankston Hospital Library. The Expo was well attended by a wide cross-section of clinicians.

QUICK FACTS

BMJ Best Practice

- Structured around the clinical workflow and updated daily
- Draws on the latest evidence-based research, guidelines and expert opinion to offer step-by-step guidance on diagnosis, prognosis, treatment and prevention
- The App provides offline access as needed
- Updated daily, the evidence based content links seamlessly to Cochrane Clinical Answers

For further information about BMJ Best Practice please contact Tony Hilker by email: thilker@bmj.com

CHC Training @ Eastern Health and Northern Health

12 sessions were held over two weeks in October and November and attended by clinicians across various disciplines. At Northern Health, 2 sessions were run for DPV Health, the pharmacy as well as other departments whilst 10 sessions were held across 3 hospitals at Eastern Health; Healesville, Maroondah and Angliss. The librarians participated in these sessions to inform clinicians of services available to them as well as tips and tricks on accessing and obtaining information resources.

Training & Events

Sessions are planned for northern Victoria region in April and March and will cover Castlemaine, Maryborough, Bendigo, Inglewood and Boort.

Watch this space for training news. Contact Miranda Ebenezer, [Medical Librarian](#), to request training for yourself or your team at your hospital or library or online.

Visit the new training calendar on the KnowledgeHub to view and register for forthcoming classroom and online sessions. View user guides, newsletters and FAQs on the [KnowledgeHub](#).

NEJM SPECIALTY UPDATES

NEW TO NEJM.ORG?

CREATE AN ACCOUNT

Your My NEJM account lets you:

- Sign up for alerts & newsletters
- Save articles & searches for easy retrieval
- Comment on articles

Customize your email delivery and get relevant clinical information sent directly to you.

Choose from 20 medical specialties and receive monthly email alerts that offer a convenient way to scan and access the research, review articles, case reports, and other content important to you.

NEJM Specialty Updates are designed especially for specialists, primary care physicians, hospitalists, and other health care professionals.
